6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 49 and 52

[EPA-R10-OAR-2017-0347; FRL-9985-78-Region 10]

Indian Country: Air Quality Planning and Management; Federal Implementation Plan for the Kalispel Indian Community of the Kalispel Reservation, Washington; Redesignation to a PSD Class I Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve and seek public comment on the May 11, 2017, proposal by the Kalispel Indian Community of the Kalispel Reservation (herein referred to as the Kalispel Tribe of Indians or Kalispel Tribe) to redesignate lands within the exterior boundaries of the Kalispel Indian Reservation located in the State of Washington to Class I under the Clean Air Act (Act or CAA) program for the prevention of significant deterioration (PSD) of air quality. Redesignation to Class I will result in lowering the allowable increases in ambient concentrations of particulate matter (PM), sulfur dioxide (SO₂), and nitrogen oxides (NO_X) on the Kalispel Indian Reservation. The EPA is proposing to codify the redesignation through a revision to the Federal Implementation Plan (FIP) currently in place for the Kalispel Indian Reservation. This FIP will be implemented by the EPA unless or until it is replaced by a Tribal Implementation Plan (TIP).

DATES: Comments: Written comments must be received on or before December 14, 2018.

Public hearing: A public hearing is offered to provide interested parties the opportunity to present information and opinions to the EPA concerning our proposal. Interested parties may also submit written comments, as discussed below. A public hearing on this matter will be held

on December 6, 2018, between 6:00 PM and 9:00 PM Pacific Standard Time in the Newport Conference Room located in the Pend Oreille Public Utility District Building, 130 North Washington Street, Newport, Washington 83822. At the hearing, the hearing officer may limit oral testimony to 5 minutes per person. The hearing will be limited to the subject matter of this proposal, the scope of which is discussed below. Written comments may also be submitted at the hearing or by following the process described below. The EPA will not respond to comments during the public hearing. When we publish our final action, we will provide a written response to all relevant written or oral comments received on the proposal. The EPA will not be providing equipment for commenters to show overhead slides or make computerized slide presentations. A transcript of the hearing and written comments will be made available for copying during normal working hours at the address listed for inspection of documents, and also included in the docket for this proposed action. Any member of the public may provide written or oral comments and data pertaining to our proposal at the hearing. Note that any written comments and supporting information submitted during the comment period will be considered with the same weight as any oral comments presented at the public hearing.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R10-OAR-2017-0347 at https://www.regulations.gov. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information, the disclosure of which is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider

comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www.epa.gov/dockets/commenting-epa-dockets.

FOR FURTHER INFORMATION CONTACT: Sandra Brozusky at (206) 553-5317, or

brozusky.sandra@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, wherever "we," "us," or "our" is used, it is intended to refer to the EPA.

- III. Statutory and Executive Order Reviews
- IV. Statutory Authority

I. Background

Part C of the CAA contains the PSD program. The intent of this part is to prevent deterioration of existing air quality in areas having relatively clean air, i.e. areas meeting the National Ambient Air Quality Standards (NAAQS). The Act provides for three basic classifications applicable to all lands of the United States. Associated with each classification are increments which represent the increase in air pollutant concentrations that would be considered significant. PSD Class I allows the least amount of deterioration of existing air quality. PSD Class II allows a moderate amount of deterioration, while PSD Class III allows the greatest amount of deterioration. Under the 1977 Amendments to the Clean Air Act, all areas of the country that met the NAAQS were initially designated as Class II, except for certain international parks, wilderness areas, national memorial parks and national parks, and any other areas previously designated Class I. The Act allows states and Indian governing bodies to

redesignate areas under their jurisdiction to PSD Class I or PSD Class III to accommodate the social, economic, and environmental needs and desires of the local population.

On May 11, 2017, the Kalispel Tribe submitted to the EPA an official proposal to redesignate the original Kalispel Reservation from Class II to Class I. The original Kalispel Reservation was established by Executive Order No. 1904, signed by President Woodrow Wilson on March 23, 1914. A copy of this Executive Order is included in the docket for this proposed action. The Kalispel Tribe submitted a supplement to the official proposal on July 13, 2017. The Kalispel Reservation is located in the State of Washington. With their proposal and supplement, the Kalispel Tribe submitted an analysis of the impacts of the redesignation within and outside of the proposed Class I area, documentation of the delivery and publication of appropriate notices, a record of the public hearing held on April 10, 2017, and comments received by the Kalispel Tribe on the proposed redesignation. The following discusses the requirements for a redesignation and how the Kalispel Tribe complied with those requirements.

A. Statutory and Regulatory Requirements for Redesignation

Section 164 of the CAA and 40 CFR 52.21(g) outline the requirements for redesignation of areas under the PSD program. Section 164(c) of the CAA provides that the lands within the exterior boundaries of the reservations of Federally-recognized Indian tribes may be redesignated only by the appropriate Indian governing body. Under section 164(b)(2) of the CAA, Congress generally established a narrow role for the EPA in reviewing state and tribal PSD redesignations. Congress explained that the EPA may disapprove a redesignation only if it finds, after notice and opportunity for hearing, that the redesignation does not meet the procedural requirements of section 164 of the Act or it is inconsistent with section 162(a) or 164(a) of the CAA. See

164(a) of the CAA identifies areas that may not be redesignated to Class III.

See 42 U.S.C. 7472(a) & 7474(a). Because of the nature of the area proposed for redesignation to Class I, neither of these sections prohibit the proposed redesignation.

The EPA is proposing this action in accordance with the requirements of section 164 of the CAA. In section 164 of the Act, Congress provides states and tribes the ultimate authority to reclassify any lands within their borders as Class I based on the following statutory and regulatory requirements:

- (1) At least one public hearing must be held in accordance with procedures established in 40 CFR 51.102. *See* 40 CFR 52.21(g)(2)(i).
- (2) Other States, Indian Governing Bodies, and Federal Land Managers whose lands may be affected by the proposed redesignation must be notified at least 30 days prior to the public hearing. *See* 40 CFR 52.21(g)(2)(ii).
- (3) At least 30 days prior to the Tribe's public hearing, a discussion of the reasons for the proposed redesignation including a satisfactory description and analysis of the health, environmental, economic, social, and energy effects of the proposed redesignation must be prepared and made available for public inspection. *See* 40 CFR 52.21(g)(2)(iii).
- (4) Prior to the issuance of the public notice for a proposed redesignation of an area that includes Federal lands, the Tribe must provide written notice to the appropriate Federal Land Manager and afford an adequate opportunity for the Federal Land Manager to confer with the Tribe and submit written comments and recommendations. *See* 40 CFR 52.21(g)(2)(iv).
- (5) The proposal to redesignate has been made after consultation with the elected leadership of local and other substate general purpose governments in the area covered by the proposed redesignation. *See* 40 CFR 52.21(g)(2)(v).

- (6) Prior to proposing the redesignation, the Indian Governing Body must consult with the State(s) in which the Indian Reservation is located and that border the Indian Reservation. *See* 40 CFR 52.21(g)(4)(ii).
- (7) Following completion of the procedural steps and consultation, the Tribe must submit to the Administrator a proposal to redesignate the area. *See* 40 CFR 52.21(g)(4).

B. Kalispel Tribe of Indians' Submittal

The May 11, 2017, proposal for redesignation and the July 13, 2017, supplement, submitted by Mr. Glen Nenema, Chairman of the Kalispel Business Council, include evidence that all statutory and regulatory requirements for redesignation of an Indian Reservation from Class II to Class I have been met by the Kalispel Tribe of Indians. The Kalispel Tribe of Indians is a Federally-recognized Indian Tribe. The Kalispel Business Council is the Indian governing body for the Kalispel Indian Reservation and only lands within the exterior boundaries of the Reservation are proposed for redesignation. The EPA proposes to find that the Tribe's submittal demonstrates that the Tribe met the requirements for redesignation discussed above, as follows: (1) At least one public hearing must be held in accordance with procedures established in 40 CFR 51.102. See 40 CFR 52.21(g)(2)(i).

The Kalispel Tribe conducted a public hearing on April 10, 2017, at the Kalispel Tribe's Camas Center for Community Wellness in Cusik, Washington. Notice of the hearing appeared in the area newspaper on March 8, 2017, at least 30 days prior to the hearing. The notice appeared again in the same area newspaper on March 15, 2017. The newspaper notices contained the date, time, and place of the hearing. The notices also included instructions for submitting comments on the proposal. In addition, the newspaper notices informed the public of the availability of a

¹ 82 FR 4915, 4917 (Jan. 17, 2017).

report entitled "Kalispel Indian Reservation Prevention of Significant Deterioration Program Class I Redesignation Technical Report, Usk, Washington" (Technical Report). The contents of the Technical Report are discussed further in section I.B(3). The Kalispel Tribe provided notice of the hearing to the State of Washington Department of Ecology on March 6, 2017, and EPA Region 10 on March 8, 2017. The Kalispel Tribe's submittal includes a certification that the hearing was held in compliance with 40 CFR 51.102, as well as a transcript of the hearing, notices, invitations to consult, and copies of comments received. These documents are included in the docket for this proposed action. Accordingly, the EPA proposes to determine that the hearing held by the Kalispel Tribe satisfied the public hearing requirement in 40 CFR 52.21(g)(2)(i).

(2) Other States, Indian Governing Bodies, and Federal Land Managers whose lands may be affected by the proposed redesignation must be notified at least 30 days prior to the public hearing. See 40 CFR 52.21(g)(2)(ii).

The Kalispel Tribe's submittal includes copies of letters sent to several entities potentially affected by the proposed redesignation. Specifically, on March 4, 2017, the Tribe sent letters to Jay Inslee, the Governor of Washington, Clement "Butch" Otter, the Governor of Idaho, Mike Marchand, Chair of the Confederated Tribes of the Colville Reservation Tribal Government, and Carol Evans, Chair of the Spokane Tribe of Indians Tribal Government. These letters invited the entities to consult with the Kalispel Tribe on the proposed redesignation. In addition, on March 6, 2017, the Kalispel Tribe sent similar letters to the Federal Land Managers for the Little Pend Oreille National Forest, Idaho Panhandle National Forest, Colville National Forest, as well as the Spokane Office of the Bureau of Land Management. None of the letter recipients requested consultation with the Kalispel Tribe regarding the proposal. As discussed in section I.B(1), the

Kalispel Tribe also ran public service notices in the area newspaper on March 8, 2017 and March 15, 2017, announcing the public hearing. Based on the outreach to states, Indian governing bodies, and the Federal Land Managers whose lands may be affected by the proposed redesignation, the EPA proposes to determine that the Kalispel Tribe complied with the notice requirements of 40 CFR 52.21(g)(2)(ii).

(3) At least 30 days prior to the Tribe's public hearing, a discussion of the reasons for the proposed redesignation including a satisfactory description and analysis of the health, environmental, economic, social and energy effects of the proposed redesignation must be prepared and made available for public inspection. See 40 CFR 52.21(g)(2)(iii).

In accordance with the requirement above, the Kalispel Tribe completed the Technical Report in February 2017. The Technical Report includes a description and analysis of the health, environmental, economic, social, and energy effects of the proposed redesignation. At least 30 days prior to the public hearing, the Kalispel Tribe made the Technical Report available on its website, as well as in hard copy form at the Kalispel Tribal Headquarters in Cusick, Washington.² In addition, the Kalispel Tribe's May 11, 2017, proposal included documentation that availability of the Technical Report was sent to appropriate state, local, and Federal officials at least 30 days prior to the hearing.

The Technical Report includes analyses of the health, environmental, economic, social, and energy effects of the proposed redesignation. The Technical Report contains a detailed comparison of baseline conditions, including climate, air quality, fish and wildlife, human health, and socioeconomics, to anticipated conditions following the redesignation. Information sources

² https://www.kalispeltribe.com/kalispel-natural-resources-department/air-quality/airshed-redesignation. The Tribe's website also contains an Airshed FAQ and Class I Fact Sheet, which explain the basics of the PSD program, the reasons for the Tribe's proposal, as well as the potential effects if the Reservation is redesignated to Class I.

used to derive baseline conditions in the Technical Report include ambient air quality monitoring data, potential emissions from sources located in or near the Reservation, wildlife surveys, census data, and commuting patterns.

The Technical Report analyzes how the proposed redesignation will impact the baseline conditions by addressing the anticipated health, environmental, economic, social, and energy effects. Specifically, the Technical Report discusses the health and environmental benefits of preserving the existing air quality in and around the Kalispel Reservation by assessing the adverse health effects of increased concentrations of criteria pollutants such as oxides of nitrogen and oxides of sulfur. The Technical Report also includes a discussion of the impact of redesignation on the current and anticipated future economic trends in the area. The Technical Report additionally describes the importance of maintaining good air quality to the social and cultural values and health of the Kalispel people.

The Kalispel Tribe also commissioned two supplemental analyses to address the energy and socioeconomic impacts of reclassification. The supplemental energy impact analysis employed air dispersion modeling to simulate the impacts of redesignating the area to Class I on two hypothetical energy projects. According to the supplemental analysis, the expected emissions from either project would not interfere with maintaining the Class I PSD increments. Our analysis found that the air dispersion modeling was performed in compliance with the EPA Guideline on Air Quality Modeling codified at 40 CFR Part 51, Appendix W. The EPA's analysis of the modeling conducted for the Technical Report is included the docket for this proposed action. These supplemental analyses were included as appendices to the Technical Report. The Technical Report and supplemental analyses are included in the docket for this proposed action.

Based on the analyses discussed above, the Technical Report concludes that the redesignation will result in a reduction in future health problems for those residing in and around the Kalispel Reservation, enhanced protection for the health and cultural use of natural resources, and overall improved economic well-being with minimal damage to local economic vitality. Accordingly, we propose to determine that the Kalispel Tribe satisfied the requirement to make publicly available 30 days in advance of the public hearing a satisfactory description and analysis of the health, environmental, economic, social, and energy effects of the proposed redesignation.

(4) Prior to the issuance of the public notice for a proposed redesignation of an area that includes Federal lands, the Tribe must provide written notice to the appropriate Federal Land Manager (FLM) and afford an adequate opportunity for the FLM to confer with the Tribe and submit written comments and recommendations. See 40 CFR 52.21(g)(2)(iv).

The Kalispel Tribe proposed to redesignate from Class II to Class I only those lands within the exterior boundaries of the Kalispel Indian Reservation. Therefore, the Kalispel Tribe is the Federal Land Manager for the lands subject to redesignation. Even so, as discussed in section I.B(2), the Kalispel Tribe offered several Forest Supervisors for neighboring National Forests the opportunity to confer prior to issuing the public notice. Therefore, we propose to determine that the Tribe has satisfied this requirement.

(5) The proposal to redesignate has been made after consultation with the elected leadership of local and other substate general purpose governments in the area covered by the proposed redesignation. See 40 CFR 52.21(g)(2)(v).

The regulation at 40 CFR 52.21(g)(2)(v) requires consultation with the elected leadership of the local and other substate general purpose government "in the area covered by the proposed redesignation." The lands covered by the proposed redesignation lie wholly within the exterior

boundaries of the Kalispel Indian Reservation. The Kalispel Business Council is the exclusive governing authority in the Kalispel Indian Reservation. There is no requirement for a finding on what areas may be affected by a proposed redesignation or notice to such government in such areas. Nevertheless, on March 6, 2017, the Kalispel Tribe sent a courtesy notice of the Tribe's intent to propose redesignation, as well as the date, time, and location for the public hearing and the availability of the Technical Report to several Pend Oreille County officials. The notice solicited the County's input on the proposed redesignation. The EPA is proposing to determine that the Kalispel Tribe satisfied the requirement to consult with the elected leadership of local and other substate general purpose governments in the area covered by the proposed redesignation prior to submitting the proposal.

(6) Prior to proposing the redesignation, the Indian Governing Body must consult with the State(s) in which the Reservation is located and that border the Reservation.

See 40 CFR 52.21(g)(4)(ii).

The Kalispel Indian Reservation is located in the State of Washington. On March 4, 2017, the Kalispel Tribe sent a letter to the Governor of Washington inviting the State to consult with the Tribe on the proposal to redesignate the Kalispel Reservation to a Class I area. On the same date, the Tribe sent a similar letter to the Governor of Idaho, despite the fact that the Reservation does not border the State of Idaho. Neither the State of Washington, nor the State of Idaho requested consultation. Therefore, we are proposing to determine that the Kalispel Tribe satisfied this requirement.

(7) Following completion of the procedural requirements, the Tribe must submit to the Administrator a proposal to redesignate the area. See 40 CFR 52.21(g)(4).

On May 11, 2017, Glen Nenema, Chairman of the Kalispel Business Council, submitted to the EPA Region 10 Regional Administrator the Kalispel Tribe's proposal to redesignate the lands within the exterior boundaries of the Kalispel Indian Reservation to a Class I area under the CAA PSD program.³ Chairman Nenema supplemented the initial proposal on July 13, 2017. The Kalispel Business Council is the official governing body of the Kalispel Tribe. Therefore, the EPA proposes to determine that the Kalispel Tribe complied with the requirement that the Tribe submit to the Administrator a proposal to redesignate the area.

II. Proposed Action

The EPA's review has not found any procedural deficiencies associated with the Kalispel Tribe's proposal. Accordingly, pursuant to section 164 of the CAA and 40 CFR 52.21(g), the redesignation is hereby proposed for approval. The EPA is proposing to codify the redesignation through a revision to the FIP currently in place for the Kalispel Indian Reservation.

See 40 CFR 49.10191–49.10220. This FIP will be implemented by the EPA unless or until it is replaced by a TIP. To ensure transparency, the EPA is also proposing a clarifying revision to the Washington State Implementation Plan at 40 CFR part 52 subpart WW, which would inform any party interested in Washington's significant deterioration of air quality provisions that the Kalispel Reservation is a Class I area for purposes of prevention of significant deterioration of air quality. The public is invited to comment on whether the Kalispel Tribe has met all procedural requirements of section 164 of the CAA and 40 CFR 52.21(g), as well as the EPA's proposal to codify the redesignation through a revision to the FIP currently in place for the Kalispel Indian Reservation and proposed revision to the Washington State Implementation Plan.

-

³ EPA Delegation of Authority 7-164 authorizes the Regional Administrator of EPA Region 10 to propose or take final action on a FIP under Section 301(d) of the Clean Air Act that applies only in Indian Country in Region 10.

III. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is not a "significant regulatory action" under the terms of the Executive Order (EO) 12866 (58 FR 51735, October 4, 1993) and is therefore not subject to review under the EO, and was not submitted to the Office of Management and Budget (OMB) for review.

B. Executive Order 13771: Reducing Regulation and Controlling Regulatory Costs

This action is not expected to be an Executive Order 13771 regulatory action because this action is not significant under Executive Order 12866.

C. Paperwork Reduction Act

This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq*. We are not proposing to promulgate any new paperwork requirements (*e.g.*, monitoring, reporting, record keeping) as part of this proposed action. The regulation at 40 CFR 49.10198 incorporates by reference the Federal PSD program promulgated at 40 CFR 52.21. The Office of Management and Budget (OMB) has previously approved the information collection requirements contained in the existing regulations (40 CFR 52.21) under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and has assigned OMB control number 2060-0003, EPA ICR number 1230.32.

D. Regulatory Flexibility Act (RFA), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 et seq.

The RFA generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedures Act or any other statute unless the agency certifies that the rule will not have a

significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For the purposes of assessing the impacts of this final action on small entities, small entity is defined as: (1) A small business as defined by the Small Business Administration's (SBA) regulations at 13 CFR 121.201; (2) a small governmental jurisdiction that is a government of a city, county, town, school district, or special district with a population of less than 50,000; or (3) a small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field. I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. This proposed action will not impose any new requirements on small entities. If finalized, this proposed action would redesignate to Class I only those lands within the exterior boundaries of the Kalispel Indian Reservation under the CAA's PSD program. The PSD permitting requirements already apply on the Reservation as well as the surrounding area. In addition, the PSD permitting requirements only apply to the construction of new major stationary sources or major modifications to existing major stationary sources. Therefore, the EPA does not anticipate this proposed action having a significant economic impact on a substantial number of small entities.

E. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104-4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on state, local, and tribal governments and the private sector. This proposed action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531-1538, and does not significantly or uniquely affect small governments. The proposed action imposes no enforceable duty on any state, local, or tribal governments or the private sector. Nor does this action create additional

requirements beyond those already applicable under the existing PSD permitting requirements.

F. Executive Order 13132: Federalism

This proposed action does not have Federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. This proposed action does not change the relationship between the states and the EPA regarding implementation of the PSD permitting requirements in the area. The EPA administers the PSD permitting requirements within the Kalispel Reservation. The States of Washington and Idaho administer the permitting requirements in the nearby areas.

G. Executive Order 13175: Consultation and Coordination with Indian Tribal Governments

This proposed action has tribal implications. However, it will neither impose substantial direct compliance cost on Federally-recognized tribal governments, nor preempt tribal law. The EPA is proposing this action in response to the Kalispel Tribe's proposal to redesignate the Kalispel Reservation from a Class II to a Class I area. If this proposed action is finalized, then major stationary sources proposed to be constructed within the boundaries of the Kalispel Reservation will be required to demonstrate that the source does not contribute to an exceedance of the lower PSD increments for Class I areas. Nonetheless, pursuant to the EPA Policy on Consultation and Coordination with Indian Tribes, the EPA consulted with tribal officials early in the process of developing this proposed action so that they could have meaningful and timely input into its development. The Kalispel Tribe submitted its proposal on May 11, 2017.

Subsequent to receiving the submission, the EPA communicated and corresponded with the Tribe numerous times throughout the review process.

H. Executive Order 13045: Protection of Children from Environmental Health & Safety Risks

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of "covered regulatory action" in section 2-202 of the Executive Order. Redesignation of the Kalispel Indian Reservation to Class I from Class II will reduce the allowable increase in ambient concentrations of various types of pollutants. The reduction of allowable increases in these pollutants can only be expected to better protect the health of tribal members, members of the surrounding communities, and especially children and asthmatics. *See* 78 FR 3086 (regarding the specific human health consequences of exposure to elevated levels of coarse and fine particles); 82 FR 34,792 (regarding the specific human health consequences of exposure to elevated levels of nitrogen dioxide); 75 FR 35,520 (regarding the specific human health consequences of exposure to elevated levels of sulfur dioxide).

- I. Executive Order 13211: Actions that Significantly Affect Energy Supply, Distribution, or Use
 This proposed action is not subject to Executive Order 13211, because it is not a
 significant regulatory action under Executive Order 12866.
- J. National Technology Transfer and Advancement Act

This proposed action does not involve technical standards. This action merely proposes to redesignate the Kalispel Reservation as a Class I area for the purposes of the PSD permitting requirements.

K. Executive Order 12898: Federal Actions to Address Environmental Justice in Minority
Populations and Low-Income Populations

The EPA believes that this proposed action does not have disproportionately high and adverse human health or environmental effects on minority populations, low-income populations

and/or indigenous peoples, as specified in Executive Order 12898 (59 FR 7629, February 16, 1994). Prior to this proposal, the EPA reviewed population centers within and around the Kalispel Indian Reservation to identify areas with environmental justice concerns. The results of this review are included in the docket for this proposed action.

Redesignating the Kalispel Indian Reservation will not have an adverse human health or environmental effect on residents within the Reservation or in the surrounding community. On the contrary, by lowering the applicable PSD increments, the redesignation will be more protective of air quality. The following pollutants are subject to the increment requirement: Fine Particulate Matter (PM_{2.5}), Coarse Particulate Matter (PM₁₀), Sulfur Dioxide (SO₂), and Nitrogen Dioxide (NO₂). Exposure to these pollutants is known to have a causal relationship with adverse health effects, such as premature mortality (PM_{2.5}, PM₁₀, SO₂), exacerbation of asthma (NO₂ and SO₂), and other respiratory effects (NO₂ and SO₂). *See* 78 FR 3086, 82 FR 34,792, and 75 FR 35,520. Therefore, a reduction of the allowable emissions of these pollutants in this area lowers the risk to the surrounding communities of adverse health effects.

IV. Statutory Authority

The statutory authority for this proposed action is provided by sections 110, 301 and 164 of the CAA as amended (42 U.S.C. 7410, 7601, and 7474) and 40 CFR part 52.

List of Subjects

40 CFR Part 49

Environmental protection, Administrative practice and procedure, Air pollution control,

Incorporation by reference, Indians, Intergovernmental relations, Particulate matter, Reporting

and recordkeeping requirements.

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental

relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping

requirements, Sulfur oxides, Volatile organic compounds.

Dated: October 17, 2018.

Chris Hladick, Regional Administrator,

Region 10.

18

For the reasons stated in the preamble, 40 CFR parts 49 and 52 are proposed to be amended as follows:

PART 49—INDIAN COUNTRY: AIR QUALITY PLANNING AND MANAGEMENT

1. The authority citation for part 49 continues to read as follows:

Authority: 42 U.S.C. 7401, et seq.

Subpart M—Implementation Plans for Tribes—Region X

2. Revise §49.10198 to read as follows:

§49.10198 Permits to construct.

- (a) Permits to construct are required for new major stationary sources and major modifications to existing stationary sources pursuant to 40 CFR 52.21.
- (b) In accordance with section 164 of the Clean Air Act and the provisions of 40 CFR 52.21(g), the original Kalispel Reservation, as established by Executive Order No. 1904, signed by President Woodrow Wilson on March 23, 1914, is designated as a Class I area for the purposes of prevention of significant deterioration of air quality.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

3. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart WW—Washington

4. In §52.2497, add paragraph (d) to read as follows:

§52.2497 Significant deterioration of air quality.

(d) The regulations at 40 CFR 49.10191 through 49.10220 contain the Federal Implementation Plan for the Kalispel Indian Community of the Kalispel Reservation, Washington. The regulation at 40 CFR 49.10198(b) designates the original Kalispel Reservation, as established by Executive Order No. 1904, signed by President Woodrow Wilson on March 23, 1914, as a Class I area for purposes of prevention of significant deterioration of air quality.

[FR Doc. 2018-23474 Filed: 10/30/2018 8:45 am; Publication Date: 10/31/2018]
